- Supporting ongoing activities relating to the Jelani Resources Proprietary Limited joint venture with Harmony Gold Mining Company Limited as well as progressing the discussions with Gold One Africa Limited at the Ventersburg project.

Ed Nealon, Non-Executive Chairman of Lexington Gold, commented:

“We are very pleased with the outcome of this capital raise, completed at market price, in what remains a challenging market environment. The strong backing from our existing shareholders, combined with new investor interest, highlights growing recognition of the value within our portfolio.

“Over the past 12 months, we have achieved a number of significant milestones, including the formalisation of a JORC-compliant Mineral Resource Estimate of over 6 million ounces at Jelani, as well as establishing a JORC Exploration Target exceeding 5 million ounces at Bothaville. These achievements reinforce the scale and potential of our South African gold assets.

“The funds raised will enable us to accelerate key work programmes, including advancing technical and economic studies under the Jelani JV with Harmony Gold, progressing due diligence and preparatory work for the potential JV with GoldOne at Ventersburg, and continuing exploration activities at our highly prospective projects.

“We are also pleased to welcome Optiva Securities as our joint broker. Their involvement in this raise and ongoing support will play an important role in strengthening our capital markets presence and investor engagement.

“We thank all shareholders for their continued confidence and support as we enter an exciting new phase of growth and project advancement”
